What is Human Trafficking?

Sex and Labor

Federal Law

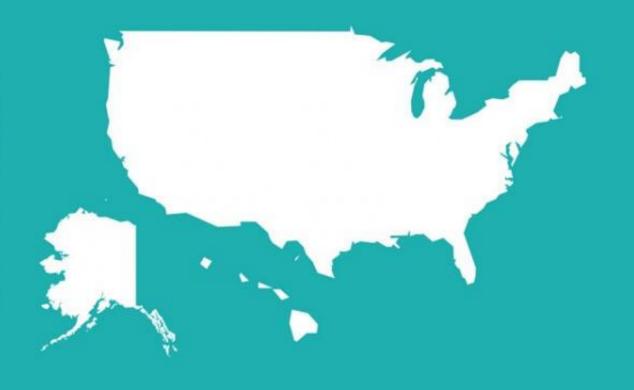

Trafficking Victims' Protection Act of 2000

- This Law was renewed in 2018
- "The Trafficking Victims Protection Act (TVPA) of 2000 created the first comprehensive federal law to address human trafficking.

Legal definition of "severe forms of trafficking in persons"

- sex trafficking in which a commercial sex act is induced by force, fraud, or coercion, or in which the person induced to perform such an act has not attained 18 years of age
- Labor trafficking the recruitment, harboring, transportation, provision, or obtaining of a person for labor or services, through the use of force, fraud or coercion for the purpose of subjection to involuntary servitude, peonage, debt bondage, or slavery

Sex Trafficking

Sex Trafficking

SEX TRAFFICKING occurs when someone uses force, fraud or coercion to cause a commercial sex act with an adult or causes a minor to commit a commercial sex act

A COMMERCIAL SEX ACT includes prostitution, pornography and sexual performance done in exchange for any item of value, such as money, drugs, shelter, food, or clothes

Four Main Types of Sex Trafficking:

- Survival Sex
- Family Controlled
- Trafficking over the internet
- Pimp Controlled

Survival Sex

Any time something of value is exchanged for a sexual favor with a minor, sex trafficking has occurred.

Family Controlled Trafficking:

- When the parents or direct family member force a child to engage in trafficking behaviors
- Often a 'family business', trafficking is a culture within the family that is passed down from generation to generation.
- Rare that one single person is the trafficker and enabler; but rather the parents, grandparents, aunts, uncles, and cousins have all been raised in a similar way and may play a role in the trafficking.
- As a result of this, it is difficult for someone who grew up in a familial trafficking environment to recognize their victimization and to brake the cycle with their own family.

Trafficking over the Internet

- Perpetrator makes contact with victim over internet and then exploits them sexually
- It is not necessary that the youth ever meet in person with the exploiter for it to be considered trafficking
- Facebook, Instagram, Hook up apps
- Backpage, and escort sites
- Sexting & Pornography

Pimp Controlled Trafficking

Impact of Trauma on Child Development

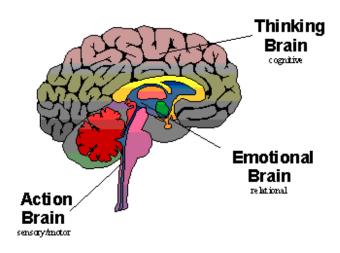

Trauma Bond/ Stockholm Syndrome

•Trapped in a relationship: A psychological phenomena in which the perpetrator alternates between love/affection and threats/trauma.

Someone in this type of relationship may believe:

- Being treated bad is normal or deserved
- Not being abused is an act of kindness
- Repetitive fighting and arguing is ok
- Defend the abuser
- Loss of free will
- In love with fantasy and not reality

| Derealisation | A feeling that everything around them is unreal, like they are in a dream Feeling as if other people are not real, or that they are like robots. |
| Depersonalisation | Having an out of body experience and looking down on themselves from above Feeling disconnected from their body as if their body belongs to someone else Feeling as if they are floating away |
